I'd search 709/226 and 229. Also, from the remarks of the applicants, I'd search 709/228. You may want to look into class 726 for authorizing usage.

Please contact me, if you need more help,

Jason and Andrew,

In inquiring about possible 709 search subclasses, a 2100 SPE recommends you (as a classifier) for such subclasses to my application, #10071228. Please assist.

RSVP, thank you.
